

MIT Dramashop To Present Play At 8:30 Tonight

"The Man Who Came To Dinner" Is Latest Thespian Production

"The Man Who Came to Dinner" will be presented by the Technology Dramashop tonight and tomorrow night at 8:30 P. M. in the Peabody Playhouse, 357 Charles street, Boston. Tickets are priced at \$.99 for the general public and \$.45 for servicemen.

The great Sheridan Whiteside, played by Lawrence Van Ingen, 6-45, was introduced to Technology last week by Charles Bulk, the publicity manager. Whiteside rolled in his wheelchair through the Institute halls, selling tickets and smoking a cigar.

In the play, Whiteside, having broken his hip on the Stanleys' front porch when he came to dinner, proceeds to take over the whole house for his work. In order to prevent the marriage of his secretary, Maggie Cutler, played by Joan T. Rothwell, G., he calls in a friend.

Freshmen To Vie For Walker Posts

Meeting On Monday In Litchfield Lounge

Freshman competition for positions on the Walker Memorial Committee will be opened this coming Monday afternoon, January 17, at 5:00 P. M., in Litchfield Lounge. The actual competition will last a week, and at the end of this time about six Freshmen will be chosen.

Herbert F. Knape, 6-44, chairman of this committee, is urging all Technology Freshmen, including the co-eds, to try out because it's a good opportunity to get into activities. This committee is the executive sub-group of the Institute Committee.

During the past year the committee's big job has been sponsoring the activities and keeping alive the student organizations in the Institute. At the present moment, the committee has been revising the constitutions of the various activities. Also, a list of officers of these groups is being prepared for the new Freshman Handbook.

The week-long competition will (Continued on Page 4)

The Baton Society Will Sponsor Sing

The Annual Competitive All-Tech Sing will be held at 8:30 P. M. in the New England Mutual Hall on Saturday, February 12.

Previously, this has been held in the Great Court of the Institute and broadcast across the Charles River. However, this year the Baton Society, which is the sponsor of the Sing, is holding it indoors.

The competitors will be representative groups from all activity and resident organizations at the Institute. Thus, any fraternity house and Class A or B activity listed in the T. C. A. Handbook may enter a team of any number of men.

The winning team will be awarded a silver cup by the judges, who will be chosen by the Baton Society. The cup may then be kept by the team until the next Sing. Both singing ability and the amount of applause received will determine the winner.

The competition has been very popular in the past around Technology. The Glee Club has furnished a nucleus for the Sing with its renditions of many old folk, drinking, and school songs.

Registration blanks for the team may be obtained in Room 302, Walker Memorial Building, and tickets will also be on sale at \$.55 for both couples and single persons.

APOLOGY

We are very sorry that The Tech did not go on sale as usual at 11:00 A.M. last Friday. The papers were not ready at the regular time because the printer's delivery truck did not arrive until 3:00 P.M. The vehicle was stuck in a snowdrift caused by the sudden storm last Thursday night.

Scott Assembles Gridiron Group

Plans For Term Made By Journalism Group

Under the leadership of William B. Scott, 2-44, former General Manager of Technique, a meeting of the Gridiron Society was held in Litchfield Lounge on Wednesday afternoon. Scott had been authorized by the Institute Committee to reorganize the society which has been inactive for over a term.

The Gridiron Society is Technology's honorary journalistic society. Membership is open only to those who have qualified by meritorious work on one of the four undergraduate publications. The society has for its purpose the promotion of better cooperation and understanding among the various publications. In past years the society offered students joint subscriptions for all four at reduced rates.

Meeting Wednesday

With the help of the many society members who attended the meeting, Scott laid plans for the reorganization of the society, planning to elect a group of new members and to hold an initiation banquet in the near future. Another meeting of the society will be held on Wednesday, January 19, at 5:00 P.M. in the Litchfield Lounge. At that time the names of the newly selected members will be announced.

One of the features of Gridiron initiation banquets in past years has been a skit written and acted by the initiates. Those present at Wednesday's meeting expressed the hope that this tradition will be upheld.

Herbert F. Knape, 2-44, Chairman of the Walker Memorial Committee, who was largely responsible for reviving the Gridiron after the long period of inactivity, was pleased with the interest displayed at the meeting. He expressed the hope that the reorganization of the society would be successful, adding hopefully that it might be possible for some other dormant organizations to effect a revival at the present time.

Hildebrand Writes Story In Air News

Article Is On Plane Of His Own Design

Robert B. Hildebrand, 6-45, has recently designed and built a model airplane called the "Kitten," and has written an article about it which he expects to appear this month in the "Model Airplane News," one of the country's leading model airplane magazines.

Bob has been a model airplane enthusiast since he was six years old. He has spent much time on his hobby with the result that he is now being honored in this magazine.

He began work designing his "Kitten" in the autumn of 1941. The idea was conceived after he had talked to several men well known in the field of model airplanes. After some time, Bob came forth with a very small ship, its wing area being only 100 square inches. Usually, fliers try to build as big a ship as possible for their (Continued on Page 4)

New Lounge Bar Opened Monday; Greater Capacity

Last Monday, January 10, the Walker Lounge Bar was reopened after having been closed three weeks for repairs and improvements. It now has a much greater capacity than before, new tables having been set up, and the bar facilities having been increased and modernized.

The Lounge Bar has been completely redecorated. A new Tarraza floor has been laid, which displays the Technology colors, cardinal and gray, and which has a five foot circular ring showing a beaver superimposed in the center. A new mirror effect has been set up behind the bar and a new fireplace and new tables have been set up.

Open All Day

The Lounge bar is open from 10 a.m. to 11 p.m. every day. Hot and cold sandwiches and drinks and ice cream of every flavor as well as sundaes and milk shakes can be obtained. The Lounge Bar is something very new in college innovations and is very popular with V-12 and A.S.T.P. students as well as with civilian students at the Institute.

Rushing Proposal Loses Importance

Street, Quattrochi, Taft Nominated for Chairman

At the regular monthly meeting of the Interfraternity Conference held at the Smith House last night the main topic for discussion was the proposed plan for easing rushing conditions. Peter L. Quattrochi, Jr., 10-44, chairman of the committee which submitted the original report, stated that several houses objected to the plan and that the committee therefore felt it advisable to make certain changes.

After a lengthy debate as to why the lists of incoming freshmen were not going to be withheld, it was moved that the original report be amended to as to permit early rushing, the writing of "rush letters" and the other factors of former rushweeks. As the motion now stands there is no restriction to be imposed upon the houses that begin early. Debate on the number of men to attend the proposed smoker was postponed until next meeting.

Blood Donor Drive Discussed

Prof. Magoun To Deliver Marriage Lecture Series; First Talk This Tuesday

MARRIAGE LECTURER

Professor F. Alexander Magoun, who will present the first of his series of T.C.A.-sponsored marriage lectures on Tuesday afternoon.

Lectures Open To All, Sponsored By T. C. A. Meetings Department

Professor F. Alexander Magoun of the Division of Humanities will deliver, under the auspices of the Technology Christian Association, two series of marriage lectures this year, one in the winter and one in the spring. Each series will consist of four lectures. The first lecture will be given on Tuesday afternoon, January 18, in Huntington Hall, Room 10-250. As has been the custom in the past, the lectures will be given from 4:00 P.M. to 5:00 P.M. and from 5:00 P.M. to 6:00 P.M. in order to accommodate the anticipated large crowds.

The T.C.A. has sponsored the lectures annually since 1938, except for last year when Professor Magoun was a consultant for the State Department and was therefore not at the Institute. The lectures were given from 1929 through 1937, but they were not then under the auspices of the T.C.A. As usual, the lectures are open to all students and members of the staff who wish to attend, women as well as men. Students are encouraged to bring dates (Continued on Page 4)

Sale Of Options For Senior Week Begins Next Week

All Senior Week Events Open To All Seniors Now At The Institute

Emphasizing that the events of Senior Week are open to all Seniors now present at the Institute regardless of whether or not they will be graduated in February, Lamar Field, 2-44, Chairman of the Senior Week Committee, last night announced that options for either blanket tickets covering all events or tickets to just the Senior Ball will be on sale next week in the lobby of Building 10.

Blanket tickets will cost a total of \$11.50, \$5.00 for the option and \$6.50 when the option is redeemed. Tickets for the ball alone are priced at \$7.70, with the options at \$4.00. Other Senior Week events, besides the ball, are the senior banquet, the Alumni banquet, and a Class Day tea dance.

Newspaper Appears

This year's first edition of "The Superheater," the paper published by the Senior Week Committee, was mailed to all members of the Senior class early this week. It erroneously (Continued on Page 2)

ELECTIONS RULES

In order to clear up some of the confusion concerning the February 2 class elections, THE TECH presents some typical election questions and answers:

1. Q. What officers are to be elected?

A. The presidents, vice-presidents, and secretary-treasurers of the Classes of 2-46, 6-45, and 10-44, and two Institute Representatives from each class. Also the Senior Week Committee, Junior Prom Committee, and members of the Beaver Key Society.

2. Q. How can I run for office?

A. Nomination blanks carrying the signatures of twenty-five sponsors (from the candidate's own class) must be submitted. Each individual may sign the nomination blank of only one candidate for each office. The blanks, now obtainable in the Information Office, must be returned there by 1:00 P. M. on January 27. Nominees must also submit the following: a 200-word statement of plans and policies, their cumulative rating, an activity record at Technology in tabular form, and (optional) a 4-5 full-face photograph. There are no nominations for class vice-presidents, since the man receiving the second highest number of votes in the presidential election is automatically declared vice-president.

3. Q. What voting system is in use at the Institute?

A. All officers are elected by the preferential ballot system. A voter numbers the candidates in order of preference and may number as many as he likes. All persons shall vote only with the class to which they are assigned by the Registrar.

Q. When will the polls be open and where are they located?

A. The polls, located in the Building 10 lobby, will be open for voting on Wednesday, February 2, from 8:30 A. M. to 5:20 P. M.

Promenade Weekend To Include Three Saturday Punch Parties

Three Saturday Punch parties will follow the Sophomore Promenade to be held in the Imperial ballroom of the Hotel Statler on January 28, 1944, from 9:30 P. M. to 2:00 P. M., with Vincent Lopez and his orchestra. These parties will be open to all holders of Soph Prom tickets.

On Saturday afternoon the Phi Gamma Deltas at 28 The Fenway will have Ken Reeves to furnish the music and will be featuring their special wine punch at an afternoon party to be held from 4:00 to 6:30 P. M. Theta Chi will hold a "hangover party" in the evening with one of Ken Reeves' bands supplying the rhythm. Their type of punch has not been released as yet. Phi Sigma Kappa will also hold a Prom-sponsored party Saturday evening with one of Keen Reeves' other bands as the musicmakers. They will also release the name of their punch next week.

Thirty Tickets Still Left

The Prom Committee announced

that so far 390 options have been sold and that most of them have been redeemed for tickets during the course of this week. Those who have not redeemed their options as yet still have till noon, Saturday, January 15, to get their tickets at the Building 10 lobby stand. Any options not redeemed by then become invalid, and the Soph Prom Committee reserves the right to resell them. Saturday is also the deadline for table reservations in the ballroom.

There still are 30 tickets to the Prom available. Any tickets not purchased by Saturday, January 15, can be obtained by V-12 students from Gerald L. MacKinnon, 6-45, in room 104-B at the Graduate House; by Army students from Robert Peck at Ware 201, or from members of the Soph Prom Committee.

Ushers to Be Announced

Harold Thorkilson, 6-45, has been appointed head usher at the Promenade. The ushers serving under him are to be announced next week.

THE FIRST STEP

Those men who listened to President Roosevelt's speech last Tuesday night heard him make reference to the privilege of voting as "the fundamental prerogative of citizenship." He said further that unless the Congress acted immediately some 10,000,000 American men and women in service would find the way to voting blocked next November. Here is a case in which the possible lack of a chance to vote for some people has caused concern to the head of this country and has become a national issue.

Contrast this concern to the usual tranquility that prevails around the Institute at Class Election time. On special occasions upwards of half of the class might get around to voting. Last year about 35% of the classes voted and that was termed "good." When this privilege, whose possible mishandling is causing concern to the nation as a whole, is so easily available to all students, why don't more of them take advantage of it?

Not only do students ignore this opportunity but they leave the way wide open for a small but organized group to swing the elections one way or the other. With only 35% voting, no more than 15% and possibly as low as 10% of a class can choose their candidates at will due to the wide distribution of the remaining votes.

This banding together of students would not be too bad if there were two or more groups working against each other in the time honored party system with each chosen candidate setting forth his principles before hand and letting the public as a whole get acquainted with him before elections. However, at the Institute if any groups were formed at all there was generally only one, in which men were picked whom those within the group knew. But no effort was made to let the rest of the school meet them. Consequently, at election time, if a man had a friend running for some office he would go and vote for him and then pick candidates at random for the remaining offices. This scattered all the votes except those of the single organized group.

This year it would be well for men to get together in groups and talk the problem over, decide who the best men are and what their views are. Then publicize these men. Let the rest of the class know who they are and what they stand for. If two or more big groups like this are actively formed the whole student body will for once know what they are buying before they buy it and will have an adequate chance to express their opinions.

Here is a chance for those who thought that the Sophomore Class officers let the freshman tie situation go too long last year before doing something about it, and an equal chance for those who thought that they did a good job on a bad situation to express their views. Here's a chance to see if a Navy man or a man from another college, new to the Institute could do a better job than the older Technology men. Here's a chance for the freshman to correct their grievances, if any, brought about by the recent freshman council elections.

All that is needed is for the students to get together and decide what they are going to do. The Elections Committee has everything prepared for them. Nomination blanks are now ready in the Information Office and a box on page one of this issue of THE TECH gives the necessary instructions and information.

Civil Engineering To Be Presented In New T.E.N.

Robert M. Gould, 6-45, General Manager of the Tech Engineering News, has announced that the January issue, which is to come out next Monday or Tuesday, will contain many new pictures and articles of interest to students and alumni. He also said, "It represents our attempt to bring Technology and its activities to the readers of T.E.N. in an interesting and palatable manner."

The alumnus of the month will be a former Vice-President of the Institute, a man who now holds one of the most important wartime administrative positions in Washington.

The new feature article, "This Is M.I.T.," which will attempt to present all departments of the Institute to the students and alumni, will have for its second chapter an article on Course I, Civil Engineering, by the head of the department, Professor Theodore B. Parker, former Chief Engineer of the T.V.A. project.

Other features include an article on hydraulic control mechanisms, known as servos or "Slave Mechanisms," by Professor Christian E. Grosser, a former General Manager of T.E.N., now of the Mechanical Engineering Department, and an article entitled "The Birth of a Bomber," by Stanford J. Fingerhoo, 2-46, which will describe the manufacturing of a bomber from the drafting boards to the test flight.

Fraternity Findings

CHI PHI BRAWL

The peace and tranquility of The Fenway will be disturbed once more tomorrow night when the boys at Chi Phi stage their Bohemian Ball. This year it's a Night in a Creepy Teepee, and from what we understand there is to be plenty of atmosphere in the form of fire water on the bar and inspiring art on the walls.

Judging from past Bohemians, we have an idea that this one is going to be a pretty rugged affair. The last we heard the Phi Gams were preparing to lock all their doors and board up all their windows, but when those Chee Phee Indians start going to town anything is likely to (and probably will) happen.

TRIP WORTH

The boys from Babcock Street, Brookline are going to introduce the mysteries of the Tech Cabin in New Hampshire to a bevy of unsuspecting young ladies over this weekend. About 11 couples are taking the jaunt and expect to be back Sunday night. To make the affair legal, Professor G. T. McBride of the Chemical Engineering Department and his wife are going along as chaperones. Among the activities that the group intend to carry on are ice skating, a treasure hunt, and a general good time by the fire during the evening.

I.F.C. Declares Open Rushing

(Continued from Page 1)

of the Walker Memorial Committee, stated that the committee's annual competition for freshmen candidates was slated to begin on Monday and requested that the houses interested inform their men. Robert B. Hildebrand, 6-45, discussed the progress made by the T.C.A. Blood Donor Drive.

Nominations for Chairman of the Interfraternity Conference for the coming academic year were made last night. Nominations will also be open at the next meeting at which the elections will be held. Quatrochi, Charles F. Street, 6-45, and Hugh M. Taft, 10-44, were nominated.

In The Spotlight

If one were looking for the typical Tech man he would hardly pick genial George Schutte. Athletic in appearance, George is too active to be representative of Technology's student body, but he has left his mark here in many ways. The most notable of these is his permanent post as president of the Senior Class, a position which he has held in both his Junior and Senior years.

George entered Technology in the fall of 1940 on a scholarship, choosing Delta Upsilon as his fraternity. He was fated not to remain in shadow long, however. That year he captained the Field Day football team and won his letters in basketball and football.

As the years wore on George became even better known around Tech. He is a member of the Beaver Club, the Quadrangle Club, and the Scabbard and Blade. He also served as a member of the Editorial Board of The Tech. In his Junior Year George was head of the last Junior Prom to hold a dance in Walker the night after the Prom. That weekend was a gala affair; at the formal on Friday night at the Statler Les Brown provided the music and the next evening, at the informal dance in Morss Hall, Shep Fields held forth.

At the close of his Junior year George was Senior member of the Student-Faculty Committee, President of the Institute Committee, and a member of the Advanced R.O.T.C. ordnance unit. It was the latter that caused his departure from Cambridge to parts unnamed, for at the end of his Junior year the

GEORGE A. SCHUTTE

army decreed that all Advanced R.O.T.C. men should go on active service. So George donned the O.D. and became Pvt. George Schutte, A.U.S.

It is in this guise that George is again at Tech, completing his Senior year in course X as a member of the Army's vaunted A.S.T.P. In his Senior year he is a member of Osiris, as well as filling those posts vacated when he answered the call to arms. It has been a long road from the President of his class at Freeport High School, Long Island, to Pfc. George Schutte, permanent president of the Class of 1944.

'TWEEN DECKS

Day after disciplinary and academic restrictions were forewarned on the bulletin board, one of our ertswile party-boys was asked whether he intended to attend the Sophomore Prom. "Hell yes!" he growled, "if I don't get hung up on one of these trees that's been sprouting recently."

Morph Werner, long renowned for his mnemonic virtuosity, went to take swimming last Tuesday, but he was somewhat hazy as to whether it was the right day. "I'm sure I have swimming this hour," he told the chief, "but I don't remember on what day. All I remember is that my swimming class came right after that big Thanksgiving dinner."

Much to their sorrow the boys of the second battalion learned last weekend that reveille means not only "You gotta get up" but also

"You gotta stay up." Restricted for hitting the sack after early muster (nothing like forty winks before breakfast to increase the appetite), we had ample time between hourly musters to meditate Housman's warning, "Up, lad! Thews that lie and cumber sunlit pallets never thrive." Only our pallets aren't sunlit that early in the morning.

It is said, "God giveth his beloved sleep." God giveth, and the Navy taketh away.

There was a V-12'er named Buster Who always slept through morning muster. He never would fail To rate "special detail" Engineering a wet swab and duster.

Words to the Wise
He who will not muster fast Finds himself on Captain's mast. Officers must be saluted. Otherwise V-12's are boot-ed.

The Man Who Came To Dinner

(Continued from Page 1)

movie enchantress Lorraine Sheldon, Marion Ferris, 10-44. She obligingly lures away Maggie's man, Bert Jefferson, performed by Jasper D. Ward, since she can get the lead in a play he has written. Maggie's attempts to get rid of Lorraine are in vain, but with the help of mad Banjo, played by Harold Miller, everything is righted in the end.

The director of this play is the capable Dramashop mentor, Professor Dean M. Fuller of the English Department, and the general manager is Gunther H. Baldauf, 2-44. Other members of the cast you will meet at the play are: Mrs. Stanley, Eleanor Edwardson, 2-46; Miss Preen, Mary E. Sullivan, 6-45; Richard Stanley, Parker H. Symmes, 2-46; June Stanley, Elaine Bickford, 6-45; John, Robert W. Gardner, 10-44; Sarah, Gertrude L. Shuit, 2-46; Mr. Stanley, Alfred J. Oxenham, 6-45; Dr. Bradley, Robert W. Connor, 2-46; Harriet Stanley, Frieda S. Omansky, 6-45; Professor Metz, Jasper P. Ward, 10-44; Luncheon Guests, Frank Pohanka, 10-44, Joseph Jordan, 2-46, John W. Hawkins, 2-46; Mr. Baker, Gunther H. Baldauf, 2-44; Beverly Carlton, William M. Siebert, 2-46; and Wescott, Lloyd H. Turoff, 6-45.

(Continued from Page 1)
announced a ticket sale for this week, but there will definitely be a ticket sale next week.

The band for the ball has not yet been signed, but the committee is working on the problem and expects to be able to announce its choice in the near future. Another issue of "The Superheater" is also planned. This will contain more details on the Senior Week plans and other items of general interest to Seniors.

M.I.T. Catholic Club Will Hold Informal

Frank W. Nolan, Jr., 10-44, President of the Technology Catholic Club, opened the first meeting of the year with the report that the dance held before Christmas was very successful. He also announced that election of officers for the next term would be held in about three weeks.

After the club constitution was read to explain the procedure of the elections, James J. Healy, 10-44, chairman of the dance committee, reported that an informal dance would be held the first week in February. Plans were also discussed for a communion breakfast to be held in the near future.

Company Seven Still Leading Navy Swimming

Chabot Edges Field In Freestyle Dash; Company Four Gains

Company Four pulled way up in the team standings in the second Navy Swim Meet Wednesday, taking both relays. Company Ten, with two firsts also jumped ahead in the scoring. Company Seven with only one first, was able to pile up enough seconds and thirds to lead the pack after two of the four scheduled inter-company swimming meets.

In the two hundred yard relay, Pritchard, Tisdale, Stevenson, and Horrigan of Company 4 combined to win in the time of 2:04.9. W. Adams of Company Ten easily took the 100 yard breast stroke with a time of 1:18.4.

Chabot Takes 50 Yd. Freestyle

The 50 yard free style furnished the closest race of the evening, when Chabot, Company 10, beat Field of Company 10 by about four inches in the time 27.2. In the 300 yard Medley Relay, Hardy McGrath, and Whipple, of Company 10, turned in the creditable winning time of 4:21.8. Company 9's O'Shea won the 75 yard backstroke in 52.7 seconds.

Goldstein of Company 5 won the 100 yard freestyle in the time 1:03.6. The last race of the evening was the 400 yard relay, which was a duel between Companies 4 and 7 with Company 4 going ahead at the end to take first. Tebbets, Tavener, Moore, and Bumley formed the winning team.

All Old Records Broken

All previous records made in the last meet were broken as the times seemed to be consistently improving. As there has been only one swim class since the last meet, this improvement must be laid to the rejuvenation gained from our vacation.

Company standing after the Second Meet:

Company	Point Total
Co. 7	23
Co. 4	21
Co. 10	19
Co. 5	18
Co. 1	17

1944 Indoor Season Opens Tomorrow

Try-outs Will Be Held For YMCA Meet Jan. 22

The 1944 indoor track season will be opened officially this Saturday afternoon when the first track meet is held. The events scheduled for the afternoon are: 300 and 600 yard dashes, hurdles, 16 lb. shot-put, 35 lb. hammer throw, special relay workouts, and try-outs for the Y.M.C.A. meet.

The latter will be staged under the auspices of the Boston Y.M.C.A. at 2:30 P.M. on Saturday afternoon. The scene of the contest will be 316 Huntington Avenue.

Tentative Schedule

Following this will be several of the most important meets of the indoor track season. The schedule of these meets:

- January 29 New England College at Tufts
- February 5 Millrose Games—New York
- February 12 BAA Games—Boston Garden
- February 19 NYAC Games—New York
- March 4 IC-4A Meet—New York
- March 11 Indoor Interclass Meet

Jack Hunn Starts Third Year As Varsity Diver And Captain

With the advent of the 1944 swimming season a familiar name is brought back into the Tech sport-light. In his four years at Tech, Jack Hunn became famous as one of the best divers and swimming captains the school has ever had. Although Jack is still at Tech in the Armed Forces, his services will be lost to the team for the duration.

Jack came from Shorewood High School in the Wisconsin town of the same name. At Shorewood, a school famous for its swimming teams, Jack was the school's premier diver and participated in the contests which gave Shorewood the state championship.

Outstanding As Freshman

With the benefits of his high school experience and records behind him, he continued to win new glory for himself upon his arrival at Tech in 1940. In four years of competition he has lost only one meet, a record which boasts approximately 24 wins in 25 meets. In the intercollegiate meets he has invariably placed in the upper bracket; last year second, and two years ago fifth. In addition to this splendid record he won the New England A.A.U. diving championship in a competition at Charlestown early last spring. He is well known as a good team captain, a constant point winner, and the kind of diver that is able to win meets and championships.

In addition to his swimming feats and activities, Jack was a track star. He was a varsity performer in the high and broad jumps, and he was the individual star of the interfraternity track meet last spring.

To bring his record up to date, he repeated his former performances in the first meet of the season. Although the Tech team bowed to R.P.I. with a score of 36 to 39, Hunn captured the dives with a total of 67.5 points. It is hoped that Jack will be able to enter the big diving competitions this year as usual. With another year's experience, he should do very well.

Jack is a member of Delta Upsilon fraternity and a wearer of the "straight T." As captain of swimming he is also a member of the M.I.T. Athletic Association.

Tech Swordsmen Start Season Wed.

The Beaver Varsity Fencing squad opens the season next Wednesday afternoon at 6:00 P.M. in Walker Memorial Gym. They meet a team from the M.I.T. Radiation Lab. The Tech boys feel pretty confident about this warm-up match in spite of the fact that a few ex-varsity men will be among the opponents.

Undeclared in last year's intercollegiate competition, the M.I.T. foilmen will have their hands full this coming winter.

Maconi Is Team's Captain

Captain of this year's outfit is Richard Maconi, a three weapon man, who is a hardened veteran under Red and Gray spangles. Among the other returning men are the afore-mentioned Dick Lopez, a three year man, Ray Gamundi, and John Vicini, who is a crack man in the epee event.

Coaching this year's aggregation is the former Olympic fencer (1928, 1932, 1936) Joe Levis who should manage to whip these foilmen into shape in the five nightly sessions each week.

The schedule follows:

- Jan. 19 Radiation Lab. (here)
- Jan. 22 Exeter (here)
- Jan. 29 Riverdale (here)
- Feb. 4 Brooklyn College (at Brooklyn)
- Feb. 5 Army (at West Point)
- Feb. 12 Navy (at Annapolis)

B.K. Hoopmen Back In Swing

Sigma Nus Over Deltas; Phi Mu Delta Wins

Last Saturday's basketball games resulted in Chi Phi defeating Sigma Epsilon Xi, Sigma Nu trouncing Delta Tau Delta, and Phi Mu Delta winning by default from Lambda Chi Alpha.

The first game of the evening found the Chi Phis beating Sigma Epsilon Xi to the tune of 25 to 18. The Fenway attack, paced by Kyros' 10 points and McNear's 7, functioned smoothly and there was never any doubt of their victory. The losers played well, but even with Dirnberger and Collins scoring 6 points apiece, they could not score enough to take the game.

Sigma Nu Over Deltas 32-19

In the nightcap, Sigma Nu had no trouble in taking Delta Tau Delta over the hurdles by the score of 32 to 19. The game was hard fought however, as evidenced by the chipped tooth received by Bob Hunter of Delta Tau Delta while fighting for the ball. The Sigma Nus, with Borg and Adams each scoring eight points, easily scored a decisive victory. The high point of the game as far as the Delta Tau Deltas were concerned was the 16 points made by Patterson of last year's varsity.

In the one game played Monday night, Chi Phi drubbed the Walker Wildcats. The score of 42-20 tells the story of the game pretty well, as the Fenway boys, paced again by Kyros and McNear, who netted 13 points apiece, romped to an easy victory. Although Aldrich, a new member of the Walker Club, scored seven points and gave the team a new punch, it was not nearly enough to enable them to come within sight of the speedy Chi Phi team.

Pi Lambdas Upset Theta Chi

Wednesday night, Pi Lambda Phi took a close one from Theta Chi, Phi Kappa defeated Alpha Tau Omega, and Phi Gamma Delta took over Theta Delta Chi.

The opening game of the evening found the Pi Lambdas Phis returning from a crushing defeat last week to topple Theta Chi in overtime, 16 to 14. Although Theta Chi, paced by Wilson's six points, took an early lead, the winners came back in great fashion to win in a sudden death overtime when Marshall dropped one in from under the basket. Great playing by Shields, who netted eight points, was a big factor in the Pi Lambda Phis' scoring the upset.

In the second game Phi Kappa had no trouble at all in subduing Alpha Tau Omega by the score of 18 to 9. Phi Kap displayed an evenly balanced quintet and good teamwork throughout the game, and had control of the ball most of the time.

The last game saw a thoroughly outclassed Theta Delta Chi team lose to the boys from Phi Gamma Delta by 29 to 5. The tall and

Crew, Coxswains, Call Conference With Coach

There will be a meeting of all crew coxswains Friday, January 14, and Monday, January 17, at 5:15 P.M. at the boat house. The meetings will start no later than 5:15 in the coach's office.

Navy Quintets In Action Again

Schedule Conflicts Slow League Down

The Navy basketball tournament started again after a three week lapse. There were twenty games planned in the first three days of this week. Evidently, something will have to be done with the scheduling as, out of the twenty games this week, eleven of them had to be forfeited.

Two of the games were very closely contested. In league 'B,' Company Eight defeated Company Nine by the score of 12-11, in perhaps one of the tightest games yet in the tournament. In League 'D,' Company Seven defeated Company One 13-12 in a sudden death overtime. The Tournament is not quite half over, and Company Five still leads in all except the 'A' league, but is very closely followed by Company Ten.

League Standings

Company	Won	Lost	Average
LEAGUE 'A'			
Co. 4	4	1	.800
Co. 8	4	1	.800
Co. 1	3	1	.750
LEAGUE 'B'			
Co. 10	3	0	1.000
Co. 3	4	1	.800
Co. 5	4	1	.800
Co. 8	4	1	.800
LEAGUE 'C'			
Co. 5	5	0	1.000
Co. 1	4	0	1.000
Co. 10	3	0	1.000
LEAGUE 'D'			
Co. 5	5	0	1.000
Co. 10	3	0	1.000
Co. 4	3	2	.600

Lt. Commander Carl Olsen Is Track Club Speaker

Lt. Commander Carl Olsen will be the feature speaker at the Annual Track Club Banquet to be held next Wednesday evening at the Smith House. The festivities will probably start about 6:30 P.M. Before his assignment to the Boston Naval District, about two years ago, Commander Olsen was coach of track at the University of Pittsburgh. While there, he coached many of the greatest quarter and half milers, including the famed Johnny Woodruff.

All interested in attending the banquet should sign up with Coach Oscar Hedlund in the Briggs Field House.

speedy boys from the Fenway controlled both backboards and thus the game. In fact, it was not until midway through the last quarter that the Fijis allowed a goal to be scored against them. The Fiji scoring was taken care of by Butler's ten points and Ed Hill's eight points.

Meager Gallery Sees Tech Romp Over Rivals; Ensign Glancey Leaves

Making a great come-back, the Beaver quintet walloped Harvard last Wednesday evening in the Walker Gym by the convincing score of 53 to 40 before a meager gallery. Only five nights before, Tech succumbed in their worst set-back of the season to Rensselaer Poly by the humiliating tally, 56-23. This sudden turn of events shows that the Beavers have not lost that pre-Christmas form with which they knocked over Bates.

Ensign Glancey, who has coached the team since November, was not on hand to see the Harvard victory. He left Cambridge immediately after the Rensselaer fray for service elsewhere. And his successor has not yet been appointed. In the meantime, George Marakas, captain of last year's outfit, is at the helm.

Heavy Schedule Coming

The Tech boys will keep up this torrid schedule with two games in three nights this coming week. Both games will be away from Walker. On Saturday night the boys travel to Worcester to tackle Worcester Poly, and on the following Monday the Advance Naval Depot, which sunk Tech 53-37 here in Walker last November, will provide the opposition.

Watson and Haddox Score High

Before we go any further, this Harvard game deserves more mention. Doug Watson and Roy Haddox had great nights under the baskets as they both combined to tally 35 big points from their guard positions. Mal Crowther missed a lot of close ones, set up several more. The Beavers jumped off to a fast start and were leading 28-18 at the half. In spite of the good play of Dean Hennessey and Dick Warren of the Crimson, Tech romped through the last half with 25 more points.

"For the first time," said former captain Marakas, "the team was really hot and stayed hot during the whole game. In past games," he continued, "the boys were hot for ten minutes and then folded up, but it sure was another story this time. Those fellows sure had their shooting eyes wide open."

For the sake of comparative scores it might be interesting to predict the outcome of this Worcester game tomorrow night. On Wednesday night Worcester was edged out by Tufts in an overtime contest, 55-56; and several weeks ago Tufts beat M.I.T. by the score of 44 to 39. So the chances for a mighty good game are high. The Beaver players are intent on winning this contest to make it two in a row.

The Rensselaer men were great team players and played together very well as a unit. A glance at the box-score will show how well the opposition scoring was distributed among the whole team.

But that first victory against Harvard in three years has so far proved to be the high point of the season. The boxscores follow:

M. I. T.	RENSSELAER
Watson, lg. ... 32	Katkaueck, rf ... 51

Outing Club Holds Ski Trip Sunday

Nominations Made For Next Term's Elections

Skiing at the Commonwealth Country Club is the only Outing Club activity for this week-end. There will be no sign-up list or trip limit, for the trip is informal. Anyone interested can take the Lake-Commonwealth car to the Country Club, at the end of the line. Members of the Outing Club may rent skis at the club office in Walker Memorial.

Details of the trip to the Tech Cabin, planned for the weekend of January 29, were announced yesterday. Transportation will be by bus to Tyngsborough, Mass., and then there will be a 6½ mile hike to the cabin. Buses will leave the Park Square Bus Station at 12:20 P. M. and 2:20 P. M. on Saturday. A round trip ticket costs \$1.20. There will also be a small group which will make the trip by bicycle. Food for the weekend will cost from \$1.00 to \$1.50.

There will be square dancing at the cabin Saturday night, and Sunday will be spent snowshoeing and ice-skating. There are no hills near the cabin suitable for skiing. The number of people from Technology is definitely limited. The signup list will go up on Tuesday morning, January 25, at 9:00 A. M. in the Building 10 Lobby.

Election Next Term

An election for club officers will be held early next term, it was announced recently by John Chamberlain, 2-44, president. The nominees are: President, L. Lloyd Balsam, 10-44; Secretary-Treasurer, DeForest W. Meehleib, 2-46; News editor, James W. Shearer, 6-45; Trip director, John W. Rowe, 6-45; and Meetings and handbook director, John H. Hughes, 6-45.

Technique Staff Needs Cameramen

Men are urgently needed on the 1945 Technique Photographic staff to take pictures around the Institute as well as to do work in the darkroom involving developing and printing, it was announced last night by William H. Farrow, Jr., 6-45, Photographic editor of the yearbook. He added that there is much photographic work to be done in the near future, and that students of all classes are eligible for positions as Technique photographers.

All the necessary equipment for indoor and outdoor photography are available, and there also are good darkroom facilities. Men trying out for Technique photographers need not have any previous experience, but will be trained by members of the regular staff. All students interested should contact Farrow as soon as possible.

Hildebrand Builds Model Airplane

(Continued from Page 1)

contests, because the only ruling on the class of ship is that its wing area must be 100 square inches or over. This made Bob's plane quite unusual. The "Kitten" also had a five sided fuselage, twin rudders, and retractable landing gear. This landing gear consists of one wheel at the nose of the plane. The two rudders keep it level and support the rest of it on the ground. Another unusual feature of the plane is its single bladed, folding propeller.

The propeller has only a single balanced blade, because this is the most efficient type. When the rubber band which is the motor has lost its force, the propeller is stopped and folds back along the fuselage, thus greatly reducing the wind resistance.

Hildebrand has made four "Kittens," but two have flown out of sight and a third has been destroyed by fire. In spite of these discouragements Bob has entered his plane in many contests and it has placed in every one of them, even against models three times its size.

A year and a half ago Bob decided to write an article on his plane, and in the September of 1942 he got a friend to draw complete plans, hoping to have his article published. From then on Bob was busy corresponding with various magazines. He had to redo his plans and take better pictures of his ship, but finally in August last year the model was accepted in its entirety by the "Model Airplane News." Bob is now writing a book on building and flying model planes. It is to be a beginner's manual, so he thinks he will call it *From the Ground Up*.

Professor Magoun Delivers Marriage Lecture Series

(Continued from Page 1)

so that they will have a common ground of understanding.

Fundamental Problems

Professor Magoun states that there are just three fundamental problems in life, namely: (1) Social adjustment, (2) Choice of, and preparation for, the right job, and (3) Choice of, and preparation for, the right life partner. The purpose of the marriage lectures is to help the younger members of the Technology "family" with the third problem.

The winter series of lectures will deal with problems before marriage, and the spring series with problems after marriage. The winter series will consist of talks on the following topics, given in the following order on Tuesdays, January 18 and 25, and February 1 and 8: (1) Criteria for a Happy Marriage, (2) Pre-Marital Sex Problems, (3) Lessons from Statistical Studies of Marriage, and (4) Courtship. All will be given in Huntington Hall with the times the same as those for the first lecture. The program for the spring series has not yet been announced.

Professor Magoun has had a long and varied experience in giving marriage lectures. Besides his annual series at the Institute, he has lectured on marriage at Simmons, Wellesley, Cornell, Lehigh, Colby, Mt. Holyoke, University of California, Oregon State, University of Illinois, and Bates. This year's lectures have been completely revised and should be the best ever, according to Donald H. Halliburton, 10-44, Director of the Meetings Department of the T.C.A., who is in charge of arrangements for the series.

Freshmen Urged To Try Out For Walker Memorial Committee

(Continued from Page 1)

include general instruction in how the committee clicks, and the Freshmen will also conduct several investigations. After this probationary period, the competitors should have a fair idea whether or not they like the work. "The members of the committee," said Vice-Chairman King Cayce, 10-44, "have their share of dog-work, but here's a swell opportunity for some men with new ideas. We don't like to get in a rut," he continued, "so we are anxious to get a little imagination to put some spark into school life."

There are several other functions of the Walker Memorial Committee which have not as yet been mentioned. This group supervises the point system at Tech, which limits each undergraduate to a certain number of important positions. The bulletin boards about the Institute also are under the supervision of the Walker Memorial Committee.

The present members of the committee are: Herbert F. Knappe, 6-44, chairman; King Cayce, 10-44, vice-chairman; Donald P. Kahn, 6-45; Robert C. Landwehr, 6-45; Robert H. Symonette, 6-45.
